

UTA **Universal Tube Adapter**

HYDRATION ACCESSORIES

A revolutionary solution for refilling your hydration system on the move. The reservoir is filled directly through the tube eliminating the need to remove the hydration pack from the back for refills.

1 Filling From a Bottle

fits a variety of water bottles.
Filling time: 50 Seconds for a 1.5L bottle.

2 QMT™ Compatible

UTA is compatible with all of Source QMT (Quick Mate Technology) systems.

3 Filling From a Tap

Designed to fit a wide range of indoor and outdoor taps.

Filling time: 2L in 45 sec.
3L in 65 sec.

4 Expanding Accordion

The expanding accordion adaptor attaches to the water spigot and hydration pack. While filling the adapter expands slowly until it reaches its full length, which signals that the hydration pack is at its full capacity.

UTA Accessories (purchase separately)

5 UTA Tube Kit Combination

A combination of our revolutionary UTA™ with QMT™ Tube and QMT™ Storm™ Valve. Allowing your system to be completely upgraded for refilling your hydration system on the move. The reservoir is filled directly through the tube eliminating the need to remove the hydration pack from the back for refills.

6 UTA With Pouch

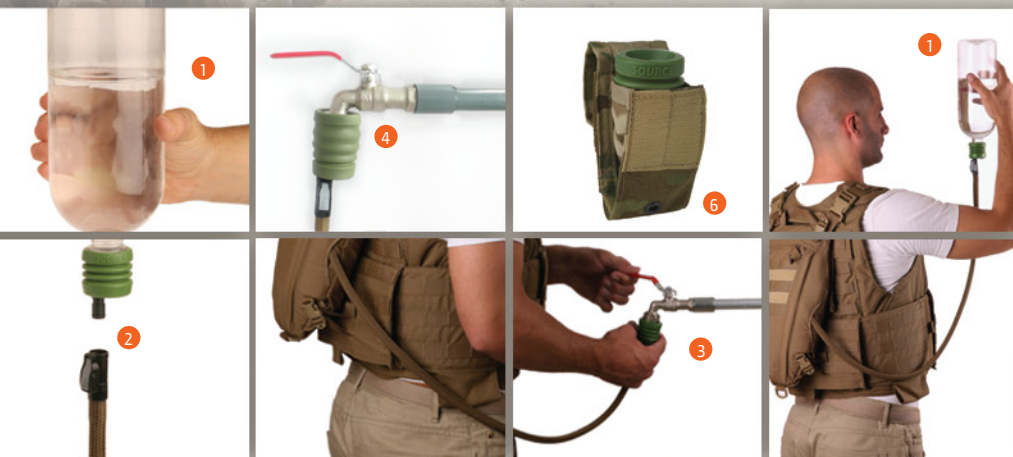

Custom pouch for UTA, equipped with Molle attachment system to mount easily on vest or ruck sack. Pouch keeps the UTA from getting lost, clean and accessible.
