

Razor 3L

LOW PROFILE
HYDRATION PACK

Razor is a low profile hydration pouch system, specially designed for integration with MOLLE/PALS based ballistic vests and load bearing equipment. The ultra slim design increases comfort for riding in a vehicle or wear under rucks, and makes it easier to operate in tight spaces.

1 MOLLE Compatible System

Securely attaches to vests and packs with MOLLE/PALS attachments.

2 Velcro Top Opening

Offers quick and easy reservoir access for cleaning, draining or refilling.

3 Cool Insulation

Closed cell insulation keeps liquid cool for better absorption by the body.

4 D-Ring Attachment Buckle

For easy mounting on non-MOLLE items .

NEW

5 Fast Disassembly

Specially designed MOLLE attachment straps for fast, convenient removal.

6 Condensation Drain Port

Drains condensation from the insulated reservoir sleeve.

7 MOLLE/PAL Attachment

Multiple MOLLE rows for attachment of pouches and pockets.

8 ID tags

Velcro strip holds ID tags.

9 Adjustable Mounting Level

Razor's position on the vest can be easily altered for a customized fit.

To raise the positioning:

- 1) Thread both MOLLE straps through the first row of Razor webbing
- 2) Thread the remaining strap through the MOLLE loopson your vest.

10 UTA Compatible

The QMT™ quick connector can be paired with Our accessory UTA™ (sold separately) to refill the Razor from bottles, spigots, and mobile water carriers directly through the drinking tube without removing it from the back.

MOLLE attachment

The Razor carrier attaches to the vest using the MOLLE system.

It's reduced profile design is far more comfortable than conventional hydration systems when riding in a vehicle or wearing a rucksack.

WLPS 3L

LOW PROFILE HYDRATION SYSTEM

NEW

SOURCE's new Low profile hydration pack, specially designed for ballistic vest integration. Maximum utilization of our low profile technology reduces the depth of the carrier making it a truly low profile hydration system.

■ TASTE-FREE™ System

Co-extruded PE film retains pure liquid taste with no plastic flavor. BPA and phthalate free.

■ Grunge-Guard™ Technology

Inhibits bacteria growth on reservoir and drinking tube surfaces for the life of the system. Technology utilized FDA-approved and EPA-registered anti-microbial agent.

■ Easy Care & Low Maintenance

For use with water, clean by simply rinsing the system and hanging it opened until dry. For use with energy drinks or sweetened liquids, follow the cleaning instructions in the attached care and maintenance booklet.

1 Hi-Flow Storm-Valve™

No-bite push-pull valve with integrated shut-off mechanism. Like drinking with a straw. Easy disassembly for cleaning. (U.S. Patent 6,622,988).

2 Angled Valve

Turned 360 degrees for perfect valve/mouth orientation. Allows tube to be 25cm shorter. Less excess tube bouncing around the chest!

3 Dirt-Shield™

Protective Cover keeps the drinking valve free of dirt and protected.

NEW

4 QMT™

Additional In line QMT™ Quick Connector at the tube extremity, allows connection of filter, UTA™ or other accessories with the push of a button.

5 Cool Weave Cover Tube

Insulates and blocks UV-light. Water stays cool and Inhibits bacteria growth from first to last sip.

6 Widepac™ Wide Opening Access

Patented slide closure for easy draining and cleaning. Airtight seal.
